"Nine Dots Development is Farm Africa's main L&D partner. They provide an excellent service, working with us to develop and tailor learning programmes that really work for our organisation. Their approach to embedding learning into daily work is really useful, as is the ongoing support they provide to staff outside of the training room. They also offer a range of solutions for delivering learning and training that really worked for us as an international organisation, with staff often based in remote parts of Africa. Our teams love the interactive approach to training and find the additional tools and reading genuinely useful and applicable to their working lives. We would absolutely recommend Nine Dots
